

Izvori financiranja i projekti u suradnji poduzetnika i znanstvenika

Nikola Balić

Projekt sufinancira Europska unija iz
Europskog fonda za regionalni razvoj.

Suradnja s gospodarstvom kao
prilika za financiranje projekata

Izvori

NACIONALNI

- BICRO PoC, ostali programi
- Poduzetnički impuls
- WB, STP2
- tvrtke

EU

- Horizon 2020
- COSME

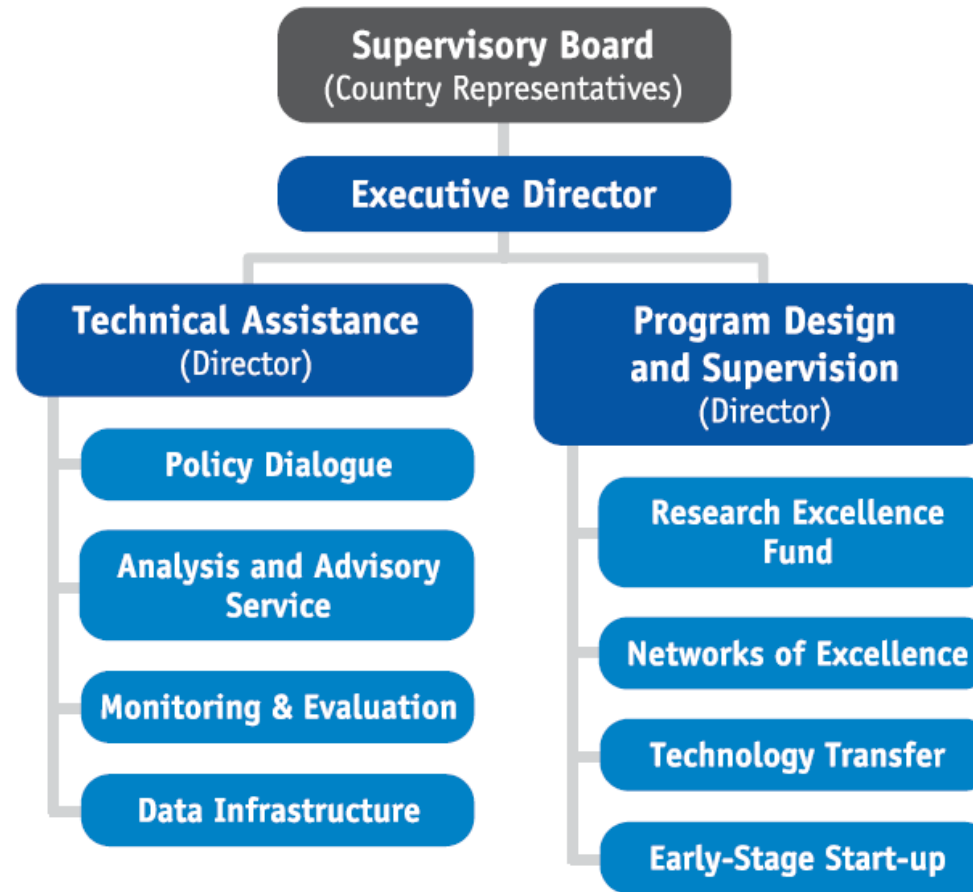

Jačanje kapaciteta za istraživanje, razvoj i inovacije

PROPOZICIJE

- Jedan na jedan, 200.000,00 € – 1.000.000,00 €
- 85% bespovratno, 15% kroz javno financirane plaće prijavitelja
- 10% do 30% ukupnog budžeta za partnera/poduzeće
- 7% za PM, 40% za opremu, ostatak druge aktivnosti
- 2 faze: Industrijsko istraživanje ili Eksperimentalni razvoj
- Rok: 10.3. / Objavljeno: 17.1.
- Trajanje: 16 mjeseci
- Ugovarajuće tijelo: SAFU, Nadzor: MZOS

The Western Balkans Innovation Strategy Exercise Facility (WISE)

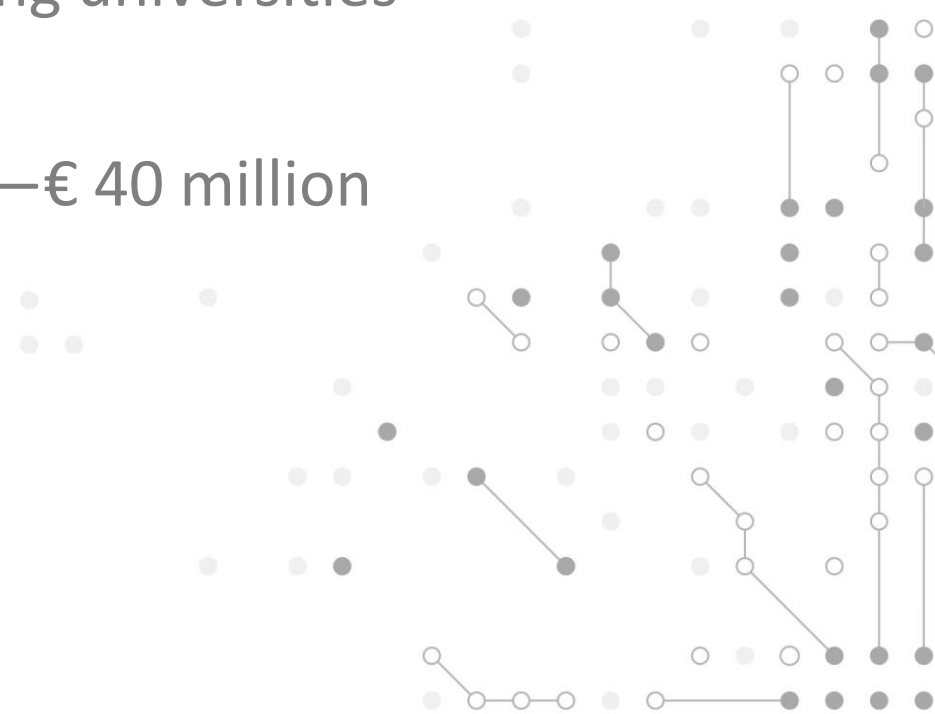

Research Excellence Fund - from “brain drain” to “brain gain”

EXPECTED OUTPUTS

- 80 projects promoting international collaboration and research funded
- 50 young researchers grant projects funded
- Training grants for 200 PhDs in science from leading universities

ESTIMATED COST

- International Collaboration in Research Program —€ 40 million
- Young Researchers Grant Program —€ 3 million
- Training Grants Program - € 12 million

Technology Transfer Program - from labs to market

OUTPUTS

- 10 Technology Transfer organizations developed
- Staff trained
- 100 joint projects between research and industry supported
- 3 technology parks restructured
- 3 new parks created

COST

- Tech. assistance: €10m
- Research – industry collab: €20m
- Tech. parks: €10m

Early-Stage Start-Up Program - Bridging the “valley of death”

OUTPUTS

- 300 proof of concepts and prototypes tested
- 100 business plans or bankable projects prepared
- 20 consultations with foreign and local investors

COST

- PoC - €30m
- Mentoring, development, advisory - €10m

Networks of Excellence - Rationalizing and modernizing research infrastructure

- Marine Research (aquaculture) — € 10 million
- Agricultural Research —€ 15 million
- Renewable Energy (energy efficiency, etc.) — € 15 million
- Nanotechnology for Health Care — € 15 million

TOTAL COST — € 55 MILLION

Horizon 2020 ili Obzor 2020

- Kroz tri glavna prioriteta programa "**Izvrсна znanost**", "**Industrijsko vodstvo**" i "**Društveni izazovi**" Obzor 2020. se usredotočuje na pretvaranje rezultata znanstvenih postignuća u inovativne proizvode i usluge koji otvaraju poslovne mogućnosti, generiraju zapošljavanje i gospodarski rast te doprinose povećanju kvalitete života stanovnika Unije.
- Nekoliko novosti koje se posebno odnose na definiranje pojma inovacija te veću usmjerenost na tržište kroz aktivno uključivanje malih i srednjih poduzeća.
- Na raspolaganju 7% ukupnog budžeta.
- Međusobna suradnja biti će ključna za dobivanje sredstava!

01

Koncept i procjena izvedivosti

Procjena rizika, tehnološke i komercijalne izvedivosti

02

Istraživanje i razvoj, demonstracija i tržišna replikacija

Testiranje, izrada prototipa, dizajn, upravljanje inovativnim procesima, proizvodi i usluge, provjera valjanosti, provjera performansi

03

Komercijalizacija

Pristup rizičnom kapitalu, oznaka kvalitete uspješnih projekata, indirektna podrška

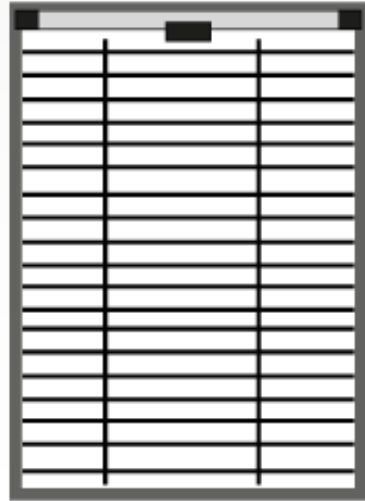

Što je suradnja?
